

## **OILBEE 200 MOBILE OIL DISPENSING UNIT WITH SWAPPABLE BATTERIES**

Article number: 030497530

EAN: 4031109024846

OIL **O**  
RADIATOR ANTIFREEZE **R**

### **DESCRIPTION**

The **OilBee 200 L** is the heavy-duty dispensing powerhouse designed for high-throughput environments such as commercial fleet depots, heavy machinery workshops, agricultural repair centers, and industrial plants. Engineered to

carry standard 200-liter commercial drums, it transforms bulk fluid containers into agile, point-of-use dispensing stations without the infrastructure costs of overhead piping or hose reels.

Despite managing heavy drum loads, the reinforced chassis with precision smooth-running casters ensures fluid, ergonomic maneuverability. The positive-lock foot brake keeps the unit firmly rooted during dispensing. Powered by an electric gear pump, the system outputs 3 to 5 liters per minute of viscous oils and antifreeze (up to SAE 140). The included dual Li-Ion battery pack and rapid charger ensure continuous, uninterrupted uptime.

**The appropriate dispensing solution can be freely selected depending on the application:**

[027170211](#) HDZ FMOG ne MÖ – with digital hand-held flow meter (hose end meter for engine oil, non-approved)

[027170475](#) HDZ preset volume ne MÖ – digital hand-held flow meter with preset quantity preselection (engine oil, non-approved)

[030492110](#) TMS smart Meter MÖ – for oil management systems (engine oil)

[027240532](#) Dispense nozzle MÖ with sight glass – without meter (manual oil control valve for engine oil)

## TECHNICAL DETAILS

|                         |                             |
|-------------------------|-----------------------------|
| Capacity                | 60 L                        |
| Viscosity               | 350mm <sup>2</sup> /s (cSt) |
| Delivery Rate           | 3-5l /min                   |
| Battery capacity        | ca. 150L                    |
| Pump type               | Gear pump                   |
| Dispensing hose         | 2,10 m                      |
| Operating temperature   | 10 to +30                   |
| Dimensions, (L x W x H) | 790x580x970mm               |
| Weight                  | ca 63 (empty)kg             |
