

The screenshot displays the 'myTecaLeMIT' web application. On the left is a dark sidebar with navigation options. The main area is titled 'Tankungen der letzten drei Monate' (Fillings of the last three months). It contains a table with columns for 'Tank', 'Füllmenge' (Filling amount), 'Füllzeit' (Filling time), 'Füllgeschwindigkeit' (Filling speed), 'Füllhöhe' (Filling height), and 'Füllstatus' (Filling status). The table lists multiple entries for different tanks, showing their respective filling details. At the bottom of the table, there is a summary row for the 'Gesamt' (Total) of all fillings.

Tank	Füllmenge	Füllzeit	Füllgeschwindigkeit	Füllhöhe	Füllstatus
1000-001-0001	1000	10:00	1000	1000	1000
1000-001-0002	1000	10:00	1000	1000	1000
1000-001-0003	1000	10:00	1000	1000	1000
1000-001-0004	1000	10:00	1000	1000	1000
1000-001-0005	1000	10:00	1000	1000	1000
1000-001-0006	1000	10:00	1000	1000	1000
1000-001-0007	1000	10:00	1000	1000	1000
1000-001-0008	1000	10:00	1000	1000	1000
1000-001-0009	1000	10:00	1000	1000	1000
1000-001-0010	1000	10:00	1000	1000	1000
Gesamt	10000	100:00	10000	10000	10000

MYTECALEMIT WEBSOFTWARE

Article number:227000000

EAN:

DESCRIPTION

myTecaLeMIT - Cloud

for tank automates and monitoring filling level devices

Webbased tank management software for all Cloud ready TECALEMIT devices for a complete protocole of your dispensing and/or filling levels.

Use the functions on the website to remember or compare

TECALEMIT GMBH & CO. KG

Am Heizwerk 4
24983 Handewitt

T +49 461 8696-126
M sales@tecalemit.de

mo-th: 08:00 - 16:30 o'clock
fr: 08:00 - 15:00 o'clock

Registration and configuration under **www.mytecalemit.com**

Please select one of the three modules for your purposes:

*** Basic Module ***

Functionalities:

- Configuration of cloud-based TECALEMIT devices - unlimited
- Email messaging by non-report (security fall)
- Administration of automates and filling level devices
- CSV Import for drivers and vehicles
- Simple evaluation of dispensings
- Save and print in pdf form
- As many myTecalemit users as you want
- Monitoring actual filling level
- Administration of tanks
- Administration of products
- Basic module is free

*** Standard Module ***

Functionality:

- Administration of authorizations
- Evaluation tool with possibility of saving
- Individual columns can be saved on servers side parameters * NEW
- Free object selection, evaluations separated between vehicles, drivers, product, etc.
- Lots of evaluations like dispensing totals, average consumption, filling level curves, distances estimation
- Relatives timetable scales
- Drivers group configuration
- Vehicles group configuration
- Synchronisation of km performance
- Manual addition of external fillings
- Administration of contingents
- Calculated filling levels
- Messaging of threshold to users

*** Premium Module ***

Functionality:

- Extended vehicle report
- Automatic sending of vehicle report
- API data export
- Price module for internal costs estimation

Use the functions on the website to remember or compare

- Integration of E-mail contacts
- Integration of suppliers module and suppliers access
- All evaluations also in CSV file
- Automatic sending of evaluations to designated people

The payable modules are to be understood like a subscription for myTecalemit Cloud that will be charged.
Order and book of the modules only at:

www.myTecalemit.com

The subscription is valid for one year and extend automatically at the end of the year. You can unsubscribe the licence before end of the year.

Your advantages:

- Everything at a glance

- Access to the Cloud from the office or wherever you are
- Usable on PC, tablet, Mac thanks the mobile version

- Site independent visibility

- Parallel visibility of information
- Data always actual 24/7

- Safe and trustful

- Encryption of your data. They are yours !
- Automatic Backup on myTecalemit Server (in Germany)

- Even more user friendly

- Easy-to-use programm
- Individual compilation of relevant information on the dashboard (not included in the basic module)
- FAQ-Dokumentation for common and regular issues

- Flexibility out of the Cloud

- Always actual data and updates
- Everytime and everywhere : in the office, at home office or on the road

- Independent use

- Free choice of devices and operating system with the web interface
- No installation of App, only internet access necessary

Use the functions on the website to remember or compare

- Use of terminal server possible
- Effectiv work from Home Office
- Control and view of data for specific predefined users
 - Further processing thanks export functions with CSV, etc. (not in the basic module)
